Plant Tour

Robroy Industries in Gilmer, TX

12:00 noon on Tuesday, February 19th

ROBROY Industries Gilmer, TX facility coats electrical fittings and conduit for use all over the world in water treatment plants, process plants and refineries. The plant tour will show all processes used to make the ROBROY product, a superior product for corrosion protection. National Sales Manager, Jeff Riestenberg, will lead the tour.

Tour will start at 12:00 noon and will be limited to 25 people. Please reserve your spot quickly. Members and non-members are welcome. RSVP to credman@norriscylinder.com.

*******Career Opportunities*******

General Dynamics has two job openings:

Transportation /Logistics Coordinator
Procurement Sub-Contract Administrator

Details can be found at www.gdsatcom.com under Career Opportunities in Kilgore, TX. You'll find all the opportunities at General Dynamics locations as well as instructions to post your resume on-line.

As defined in the 10th addition of the APICS Dictionary:

Product flexibility – The ease with which current designs can be modified in response to changing market demands.

Product mix – The proportion of individual products that make up the total production or sales volume. Changes in the product mix can mean drastic changes in the manufacturing requirements for certain types of labor and material.
