Subject: APICS CPIM Review Module 4: Execution and Control of Operations

All,

Happy Holidays to all our members and friends! Sorry, no **APICS East Texas Chapter** newsletter for the month of December. We know all of you are busy with Christmas shopping, parties and planning New Year's festivities. Many of you will be setting personal and professional goals for the new year.

If your goals include professional development, continuing education, or career advancement, we have a suggestion. You can get a head start on your goals with our next class **CPIM Review Module 4: Execution and Control of Operations**.

This course focuses on these main areas:

- Prioritizing and sequencing work
- Executing work plans, implementing controls, and reporting results
- Evaluating Performance and Providing Feedback

We will discuss techniques for scheduling and controlling production and process operations. This module also addresses the execution of quality initiatives and continuous improvement plans as well as controlling and handling inventories. Finally, this course presents techniques for evaluating performance and collecting data for effective feedback. For a detailed outline on this course, click [here](#).

Classes will start Monday, January 18th and will be held twice weekly Monday/Thursday from 6:00 to (around) 8:30 pm. Click [here](#) for a sign-up sheet. J-W Manufacturing again has offered classroom space to run our program.

Please note: Students will need to order the Participant Guide from the APICS Bookstore. Click [here](#) to order the following:

Execution and Control of Operations - Participant Guide (CPIM) Version 2.3
