Message from the President

Greetings members and friends. I hope you have enjoyed your holidays and made it safely thru to the new year. We will kick off this year with a program that should be of interest to anyone who touches a computer. When we surf the net we sometimes do a lot of surfing in the wrong waters. If you know how to focus your searches in the proper areas you can greatly reduce the amount of time you waste in muddy waters.

Another concern we all share is security. When you increase the number of websites you visit you also increase the likelihood of running into a virus as well as providing opportunity for infiltration into your computer and information.

Come to our January meeting and learn how to secure your information while making the best use of your web time.

Scott LeCompte will present a program that will help you in both these areas. Scott has an AAS in computer Information Systems from Kaplan University. He has 17 years of experience in Web Development and 20 years experience in PC repair and networking. He has been an Open Source PHP / MySQL developer since 2007. He has also owned his own Einstein Computers LLC a company offering Web Development and computer repair.

Larry Pascoe, CPIM, C.P.M.

PLEASE JOIN US FOR THIS MEETING

When: January 24
Where: Meadowbrook Country Club,
1306 Houston St.
Kilgore, Texas
